KEY SKILLS

Hand coded HTML(5) & CSS(3) (compatible with standards compliant browsers), usability and accessibility, SEO, Wordpress, Javascript and jQuery, Responsive and Adaptive Design.

EMPLOYMENT

December 2013 – August2014: Big Group, London UK, BigGroup, London, UK
Front End Developer – Delivering pixel perfect hand-coded HTML/CSS for various marketing campaigns templates. Fixing existing cross-browser and cross platform UI bugs on clients websites. Creating email newsletter templates optimised for major email clients and mobile display. Liaising with Project Managers, Team Leads, as well as design, testing and back-end development teams;

August 2013 – November 2013: Addison Group, London UK, http://www.addison-group.net, London, UK
Front End Developer – I gained experience working on the responsive design on client's projects such as FIFA Turkey. I then worked across the various projects making sure that CSS and HTML is clean and well structured. I also gained experience working with Umbraco, Wordpress, Drupal, Accessibility and Usability, jQuery and Javascript, SVN and Github.

June 2013 – July 2013: School Website, www.schoolwebsite.co.uk, London, UK
Front End Developer, Start-up - I was a contractor working on two projects developing W3C compliant websites from a layered PSD utilising HTML, CSS and jQuery / Javascript combined with an in-house developed CMS.

April 2012 – May 2013: MOTILO, www.motilo.com, London, UK
Front End Developer, Start-up - I was a member of the team developing a social media platform with cutting edge technology – "Shop Together". I was also in charge of redesigning magazine.motilo.com using HTML5, CSS3, Javascript, jQuery, Bootstrap and Responsive Design; Experience also includes Backbone.js, Wordpress and Yii.

July 2011 - March 2012: IDC CEMA s.r.o., www.idc.com, Prague, Czech Republic
Front End Developer – I was a member of a design team responsible for IDC.com web maintenance; member of a team working on www.idc-ei.com redesign. I was also a part of a team developing a prototype of an IDC.com mobile application.

October 2010 - June 2011: HSBC Bank plc, GPS, www.hsbc.com, Ostrava, Czech Republic
Web Associate – I was of part of the editorial Global Publishing Services team responsible for HSBC World Wide Web content. Included: working in a team to develop accessibility check list level A and level AA to assess global HSBC websites; Responsibilities also included Information Architecture - working with design team on prototyping the HSBC UK intranet website and SEO consultancy for HSBC France.

July 2010: SPIRULI
Freelance Web Developer and Designer – Customizing the nopCommerce shopping cart to client requirements.

May 2010: VIDIA-DESIGN Prague, Czech Republic
HTML & CSS Coder - Working as a contractor on developing templates from .PSD mockups.

March 2010: ILLEGAL Design Sydney, Australia
HTML & CSS Coder – Contract work on updating and template management and creating and

updating CSS style sheets for www.egpr.com.au.

February – November 2007: Ground Under Publishing, Prague, Czech Republic
HTML Editor – I was responsible for HTML coding for the online magazine.
